Date & Time: 23<sup>rd</sup> March 2010 (09.00 – 17.00)

(6 hours of structured CPE qualifying under Core Competencies in terms of MIA CPE Regulations)

### BACKGROUND INFORMATION

Many accountants breathed a sigh of relief when the IASB announced that no new or revised standards would apply until 1<sup>st</sup> January 2009. Now that this brief period of relative stability has come to an end, it is time to take stock of what the IASB have been up to during that period. New and revised standards have been issued relating to operating segments, borrowing costs, presentation of the financial statements, business combinations, consolidated accounts and provisions and contingencies. With still more changes coming through as part of the IASB's annual improvements project, now is the time to start planning for the future.

### THIS COURSE & ITS OBJECTIVES

This course looks at the changes that have been introduced in 2009, (some of which have an effective date or early adoption date falling in 2010), providing an overview of the key changes and practical advice on how to make the transition as smooth as possible. Recent IFRICs that are applicable for the first time in 2009 (hence financial reporting periods being reported upon as of now) will also be covered.

Learning outcomes including obtaining a greater understanding of:

- Significant new and revised standards
